eyes on

3-STEP QUICK SETUP

ADD DRONES TO MEETINGS

eyeson ghostbuster is a sample implementation demonstrating the benefit of adding offsite devices to a meeting.

Visit our blog for further information or watch tutorial video

1. DOWNLOAD APP

Download eyeson ghostbuster RTMP server for Windows or MacOS, install & start it.

2. START MEETING

Start an eyeson video meeting & insert the guest link into eyeson ghostbuster.

3. ADD DRONE

Start RTMP live streaming on your drone by entering the IP address of your PC.
